Good afternoon Mr. Zuckerman, my apologies for not getting back to you sooner. I'd be happy to set up a time for us to talk about Class VI UIC permitting. I could do Tuesday morning, Wednesday afternoon, or Friday next week. If those time slots are not workable, please suggest a date/time for the following week that would be better for you.

Regards,
David

David-

I am reforwarding the email I sent before the holidays which may have gotten lost in the festivities. We are still interested in pursuing the conversation suggested by George Peridas at your convenience.

David-

This is Tom Zuckerman. When might you have an hour to discuss the Class VI process with you? And at what telno. Can we reach you?

Subject: Introduction to potential Class VI applicants

Hi David,

I wanted to introduce you to Tom, Brian and John Zuckerman. The Zuckerman family has been farming in the Delta for over a century now, and Tom has spent an illustrious career representing local water

agencies' interests in the notorious water wars that the region is famous for, among several other things. In addition, you will find his sons extremely knowledgeable, sophisticated and agreeable.

The Zuckermans have significant holdings in the Delta, and are also acting as the agent of a "unit" that controls 6,600 acres of land and the underlying mineral rights. They are eager to get a geologic carbon sequestration project going, and want to discuss a potential Class VI injection well permit application with you.

I am connecting you so you can discuss further at your convenience.

Many thanks,

George Peridas, Ph.D.

Director, Carbon Management Partnerships
Lawrence Livermore National Laboratory
